

# X FLY MINI

## **SMALL AND PACKABLE**

Cameras are only getting smaller. X fly Mini was designed and optimized to carry the most popular gimbals while keeping its footprint to a minimum. The whole system packs into the Pelican air 1605 case.

## **WEATHER PROOF**

All of X fly Mini electronics are securely housed in a stout aluminum frame protecting them from the elements and rough handling.

## **BROADCAST LIVE EVENTS**

X fly Mini is not affected by wind, altitude or temperature. Float it right on the action, over crowds or through tight spaces, over and over again. Meets all the demands of broadcasting and live events.

## **QUIET MOVEMENT**

X fly Mini features multiple lines of defense to kill noise and vibration before reaching your camera.

## **PAYLOAD OPTIONS**

The adjustable wire damper comes with a 3/8" center hole and two 1/4" slots for attaching a quick release plate.

## XD cam Gyro Head

### 3 axes Gyro-stabilized head Digital

**Length** : 41 cm

**Width** : 32 cm

**Height** : 45 cm
