

*XD motion*

**Cablecam multi-dimensions**  
**Package X fly Mini + XD cam Head**

**XD motion offers now the X fly Mini with our new XD cam Head 3 Axes Gyrostabilized as a package.**

The X fly Mini keeps your crew fast and small, requiring a single operator to control all the functions of the cablecam, gimbal and lens.

XD cam Head will allow smooth motion images on 3 axes thanks to its Gyrostabilized system. It is very easy to use thanks to its RF remote control.

# X FLY MINI

## CINEMA

X fly Mini was designed to carry professional cinema packages like the ARRI ALEXA Mini, Sony F5 and RED.

## SINGLE OPERATOR

Fast and small requiring a single operator to control all the functions of the cablecam, gimbal and lens.

## AUTONOMOUS END-POINTS

With its ground breaking technology, X fly Mini comes to a smooth stop at each end of the line automatically. This means you can relax and focus on other details of the shot.

## SAFE

With the optional Safety Wheel Kit you can add a second line to the system to ensure absolute security when floating over crowds and in live scenarios. It too utilizes the tool-less Line Lock, so switching between multiple lines is a breeze.

## SMART

With its intelligent sensing technology X fly Mini can capture perfect shots. Its built-in safety features include; Anti-Slip and Anti-Stall to protect itself and your gear. Selectable acceleration and deceleration ramps let you control the smoothness of motion.

## X FLY MINI

### **SMALL AND PACKABLE**

Cameras are only getting smaller. X fly Mini was designed and optimized to carry the most popular gimbals while keeping its footprint to a minimum. The whole system packs into the Pelican air 1605 case.

### **WEATHER PROOF**

All of X fly Mini electronics are securely housed in a stout aluminum frame protecting them from the elements and rough handling.

### **BROADCAST LIVE EVENTS**

X fly Mini is not affected by wind, altitude or temperature. Float it right on the action, over crowds or through tight spaces, over and over again. Meets all the demands of broadcasting and live events.

### **QUIET MOVEMENT**

X fly Mini features multiple lines of defense to kill noise and vibration before reaching your camera.

### **PAYLOAD OPTIONS**

The adjustable wire damper comes with a 3/8" center hole and two 1/4" slots for attaching a quick release plate.

## XD cam Gyro Head

### 3 axes Gyro-stabilized head Digital

**Length :** 41 cm

**Width :** 32 cm

**Height :** 45 cm

**Weight :** 3,8 kg

**Maximum Payload :** 10 kg

**Lens control Fujinon, Canon and Angénieux :** Zoom and Focus
